THE VILLAGE AT
Appian Way

It was a long, hard day! All you can think about is going home...getting comfortable... enjoying a home-cooked dinner...and curling up with something good to read and your favorite music. You think, "This is what home's all about."

Then comes the weekend...and a casual dinner party for close friends at your apartment home. All the little extras in the kitchen make preparations easy. It makes you feel great to hear your guests remark, "This place has everything!"

Of course it does! You wouldn't settle for anything else. Time-saving advantages of having a dishwasher, no-wax tile floors and a frost-free refrigerator are some of the reasons you love living at Appian Way. And you can't beat the efficiency and low cost of the revolutionary Apollo HydroHeat system, which allows your gas water heater to keep your apartment home toasty warm, while you pay lower utility bills!

You love the accessibility of exciting restaurants, gathering places, Easton shopping and interstate I-270.

Your apartment home in the Village at Appian Way has all of these advantages and more. Exciting new interiors with bright, open spaces. Modern conveniences that make your apartment a home. And, best yet, the Village at Appian Way offers you comfortable, convenient living at a cost that's easy to live with.
